**Supplement 02**

On July 5, 2017 at about 1330 hours, I attended Ronnie's autopsy at the Stanislaus County Coroner's Office in Modesto. The autopsy was performed by Dr. Sung Baik. Dr. Baik concluded the Ronnie died due to drowning. There were no injuries or trauma found on the body. A silver colored necklace was collected from Ronnie's neck and later entered in to evidence for safe keeping. Photographs were taken and attached to this case. I contacted Frank and advised him the cause of death was determined to be from drowning.

**Recommendations:**

Attach to main.
